Previous questions

March 2015

SOE QUESTIONS

AKI
Adrenal insufficiency
Myasthenia
PTE
Pulmonary haemorrhage
Weaning from ventilation
Arrhythmias
Child protection
Phosphate
Cardiogenic shock
Inotropes
Pre eclampsia
Local anaesthetic toxicity
Acute stroke
Management of the trauma patient
HIT
Status epilepticus

OSCE:

Carbon monoxide poisoning (simulation station)
Epidural haematoma
Tension pneumothorax
CRBSI and bundles
DKA (uk guidelines)
CT abdo - retroperitoneal haemorrhage
CT head - MCA thrombosis, TBI with subdural
Stroke thrombolysis
CXR - pulmonary hypertension!!!
ECGs - WPW, SVT with aberrant conduction, PTE, inferior STEMI

October 2014

SOE QUESTIONS

Scoring systems

Burns

Nutrition

Pleural effusions

Drowning

Intra abdo sepsis

Fluid responsiveness

Infective endocarditis

Pseudo obstruction

OSCE

Blocked tracheostomy

Paracetamol OD

PAC

Delirium

ARDS

Head injury and neuro protection

DKA

Stroke thrombolysis and decompressive craniectomy
